

# The terms, in plain *language*.

A working summary for you and your media buyer. The full program terms live in your network agreement and at [healthrx.com/affiliates](https://healthrx.com/affiliates).

## Attribution

30-day last-click cookie. Sitewide first-party click capture on every [healthrx.com](https://healthrx.com) URL. Server-side conversion reporting to your network.

## What commissions

New-patient first orders on 3-month plans and longer, at the published rate card. One-time orders pay 50% of the subscription rate. Monthly plans, renewals, and existing patients do not commission.

## Payment

Paid through Awin (advertiser 129105) or Katalys (program 1630) on your network's standard validation and payment schedule.

## Approved claims

Price, access, convenience, physician supervised, licensed US providers, all 50 states, LegitScript certified, 503A pharmacy partners. Nothing else.

## Prohibited traffic

No brand-term bidding or lookalike domains and handles. No coupon, cashback, or incentivized traffic. No cookie stuffing, forced clicks, spam, or misleading pre-landers. No affiliate-run paid ads for prescription products on Google, Meta, or TikTok.

## Prohibited claims

No weight-loss results, numbers, or timelines. No before and after imagery or patient outcome stories. No FDA-approval claims or brand-equivalence language. No cure or guarantee language. No fabricated reviews.

## Disclosure

Disclose the paid relationship clearly, before the link, in the same language as your content, on every placement. Use the channel templates in the partner kit.

## Mandatory boilerplate

On every GLP-1 placement: "Compounded medications are not FDA approved. Prescription products require an online provider consultation and are prescribed only if appropriate."

## The medical step

Your audience completes an online intake reviewed by a licensed provider, and medication is prescribed only if appropriate. You link to care. You never sell medication or answer medical questions.

## Enforcement

Violations forfeit unpaid commissions and can end the partnership. Questions first: [partners@healthrx.com](mailto:partners@healthrx.com) answers within 24 hours on business days.

Something you want to run that is not covered here?
